BAKING WITH DAD *Fridge Magnets*

1. Print off the first page and glue it onto a piece of card.
2. Once it has dried, carefully cut along the dotted lines.
3. Glue small magnets onto the back of each illustration.
Alternatively, use self-adhesive magnets, which can be found in most craft shops.
4. Add the set of Baking with Dad magnets to your fridge!
Create a scene or use them to pin up recipes that you would like to try making together!

Other ideas!

Cake toppers - Print off the page of illustrations, glue the sheet to a piece of card and carefully cut along the dotted lines.

Tape a toothpick to the backs of the illustrations (watch out for the sharp points!)

Make and ice a cake, fairy cakes, or a batch of muffins. Once they are cool, push the cake toppers into the cakes so that they stand upright.

Stickers - Print the illustrations onto full-sheet adhesive paper and cut along the dotted lines to create stickers.

Why not use them to decorate a handmade recipe book?

Make-a-scene - Print off the illustrations and cut along the dotted lines. Draw or paint a kitchen onto a piece of paper and place the characters and other illustrations onto the page to create a scene.

We would love to see photos of anything you make - please send them to office@childs-play.com, or tag [@childsplaybooks](https://twitter.com/childsplaybooks) on Twitter and we'll share your creations with other fans on social media!
